

## Extruded Aluminium Blades

### Architectural Feature

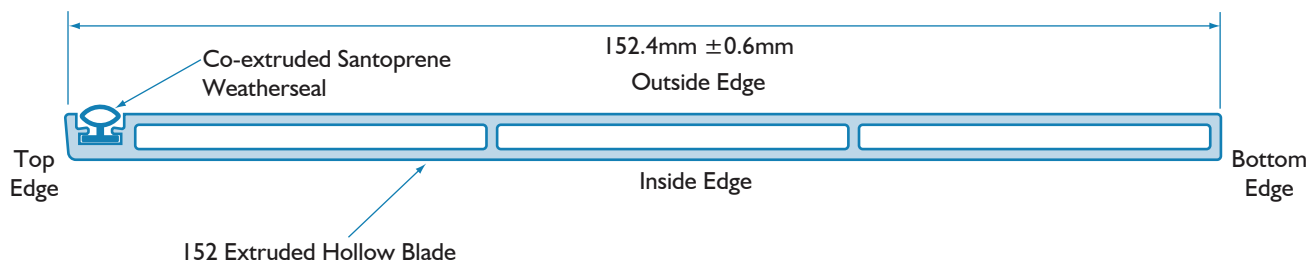

- Aluminium blades create strong lines and bring a sharp modernity to a room.

### Wide Choice Of Colours

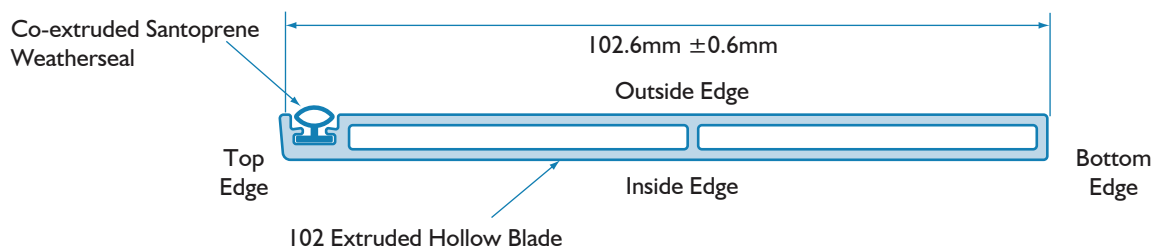

- Extruded Hollow Blades are available in powdercoat finishes in a wide range of colours or in anodised finishes.
- Standard or High Performance Finishes are available.
- Aluminium blades can even be coated with a powder coating finish that looks just like timber.

### Can Be Swapped With Other Blade Types

- Glass, aluminium and rebated timber blades all fit into the same clips.
- Blades can be changed according to the season, eg clear glass blades in the winter to allow warming sunlight into the home, then swapped for timber or aluminium blades in the summer to block the hot sunlight and keep the home cool.
